CAM REQUIREMENTS

Complies with the requirements defined by CAM Edilizia for acoustic and thermal insulation materials regarding the demand for high acoustic absorption performance, recycled content percentage, and the absence of hazardous substances.

REMADE IN ITALY CERTIFICATE

Isospace Skin Up holds REMADE IN ITALY certification, an ACCREDIA-accredited product certification that verifies the recycled content percentage in the product. This certification is accepted during bidding and awarding phases, in compliance with public procurement regulations and Minimum Environmental Criteria (MEC) requirements.

100% RECYCLABLE

ECO-FRIENDLY

ENVIRONMENTAL PROTOCOLS

Isospace Skin contributes to earning credits toward building environmental certification under both LEED and ITACA protocols.

SHORT SUPPLY CHAIN

The entire lifecycle of Isospace Skin is managed within Italy, significantly reducing the environmental impact associated with transportation of raw materials, semi-finished products, and the final product.

MADE BY ITALIANS

HI-TECH MATERIALS

Isospace Skin solutions are made from FIBTEC®, a special completely non-toxic and hypoallergenic polyester fiber, obtained from recycled PET. This material has a high sound absorption coefficient, is environmentally friendly and long-lasting.

The internal FIBTEC® structure is then covered with Trevira® fabrics, materials with a natural texture that are soft to the touch yet durable, easily washable, and long-lasting. Trevira fabrics are certified with the highest ratings according to Oeko-Tex Standard 100.

Every square meter of FIBTEC® is produced by recycling 39 PET bottles

CE MARKING

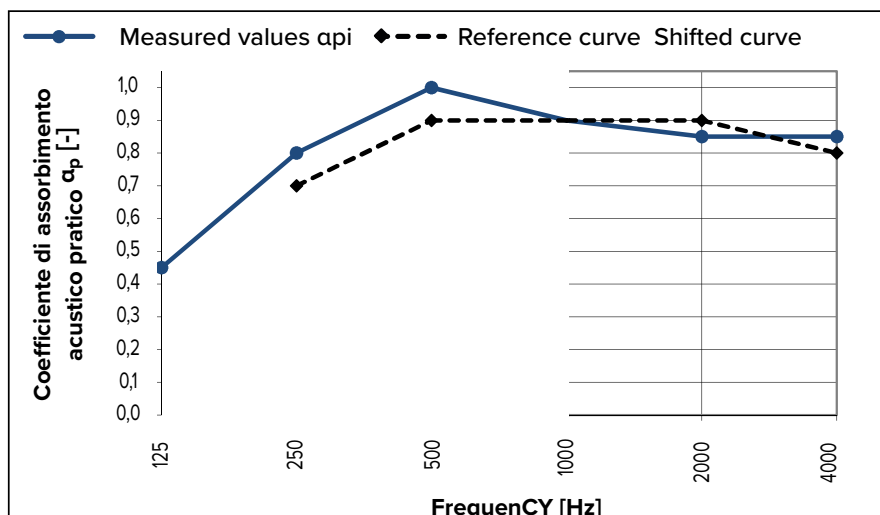

Isospace Skin Up solutions have CE marking in compliance with EN 13964:2014

SOUND ABSORPTION

Sound absorption measurement in reverberation room (UNI EN ISO 11654:1998)

f [Hz]	α_p [-]
Frequency	Practical sound absorption coefficient values
125	0,45
250	0,80
500	1,00
1000	0,90
2000	0,85
4000	0,85

α_w	0,90 CLASS A	Weighted sound absorption coefficient Sound absorption class	UNI EN ISO 11654:1998

DURABILITY

LIGHTWEIGHT

EASY TO HANDLE

EASY TO CLEAN*

*For optimal panel cleanliness, use a vacuum with a smooth nozzle (without brushing) or a dry microfiber cloth.

VOCE DI CAPITOLATO: ISOLSPACE SKIN UP

Pannello fonoassorbente modulare tridimensionale per applicazione a soffitto su struttura esistente, costituito da IsolFiBTEC, speciale fibra in tessuto tecnico di poliestere ingegnerizzato per ottenere il massimo potere fonoassorbente, rivestita da tessuto in poliestere Trevira CS. Spessore 22 mm circa. Caratterizzato da design superficiale Oblique o Smooth.

Applicabile a vista negli ambienti come rivestimento di superfici, mediante appositi supporti (nastro, adesivo e/o viti). Formati variabili (59,5x59,5cm).

Colore di finitura a scelta del DL.

Coefficiente di assorbimento acustico Classe A testato in camera riverberante con intercapedine (montaggio tipo J) secondo la norma UNI EN ISO 354.

Assenza di sostanze organiche volatili e nocive certificate dal raggiungimento del massimo punteggio nel VOC (A+) e Indoor Air Comfort (GOLD).

Quantitativo di riciclato all'interno del prodotto certificato da ente terzo e che contribuisce a conferire al prodotto la conformità ai CAM (Criteri Ambientali Minimi).

Certificazione di reazione al fuoco Euroclasse B-s2,d0.

COLORS AND FINISHES - PALETTE NATURE S - FABRIC 100% PL Trevira CS ECO

The Isospace Skin color palette draws inspiration from the natural world, creating refined environments that provide authentic and complete wellbeing. The colors in the palette are available for all versions of Isospace Skin. The upholstery features 100% PL Trevira CS ECO fabric, sustainably manufactured from recycled post-consumer PET bottles. The fabric stands out for its exceptional sustainability credentials, containing a minimum of 50% recycled material in each filament. It is GRS (Global Recycled Standard) and OEKOTEX certified, fire retardant and 100% recyclable. Pleasant to the touch, it cleans easily and is highly resistant to wear.

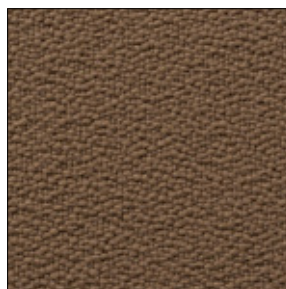

Custom colors can be requested for specific design requirements and quantities. Prices may differ compared with standard colors.

NOTE

When placing your order, please specify the color code for each product selected.

Color variations may occur between different production batches. Such subtle color variations between fabric batches are inherent to high-quality textile manufacturing processes and are not considered defects in the product.

CAUTIONS

This data sheet does not constitute a specification, and if it consists of multiple pages, please ensure you have reviewed the complete document. The guidelines provided reflect our expertise but serve as general recommendations only. Users assume full responsibility for determining product suitability for specific applications and any consequences of use.

Please be aware that panels may exhibit minor variations in thickness and dimensions due to the properties of the materials used in manufacturing
